Outlook - 2005

USA

Improvements in consumer spending, industrial production and employment

Tightening in monetary policy

High oil prices not impacting growth

China

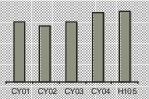

GDP growth rate remains strong and sustainable Fixed asset investment focussed on infrastructure de-bottlenecking

RMB revaluation neutral to positive

Quality and sustainability of growth is key

Europe

Subdued domestic demand, high unemployment and strong Euro

Limited improvement expected in next 12 months

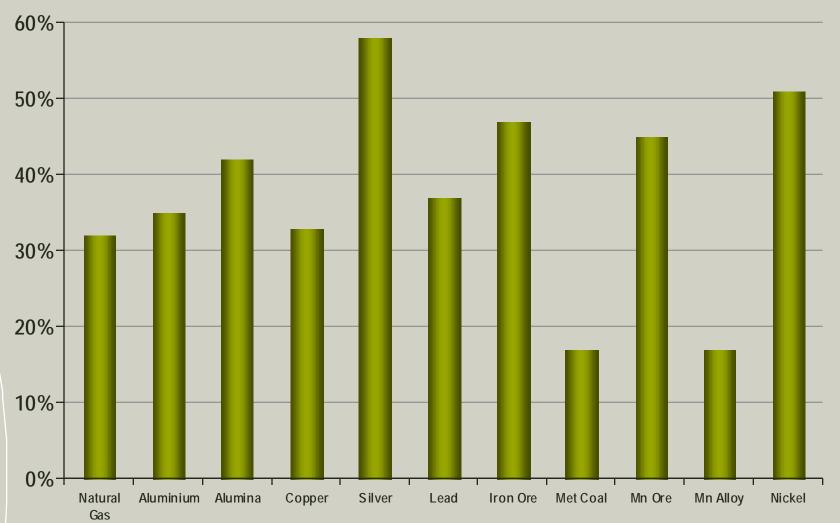

Japan

Confidence increasing due to domestic demand Rising business confidence, capital expenditure and employment

Higher raw material and energy prices not materially impacting growth

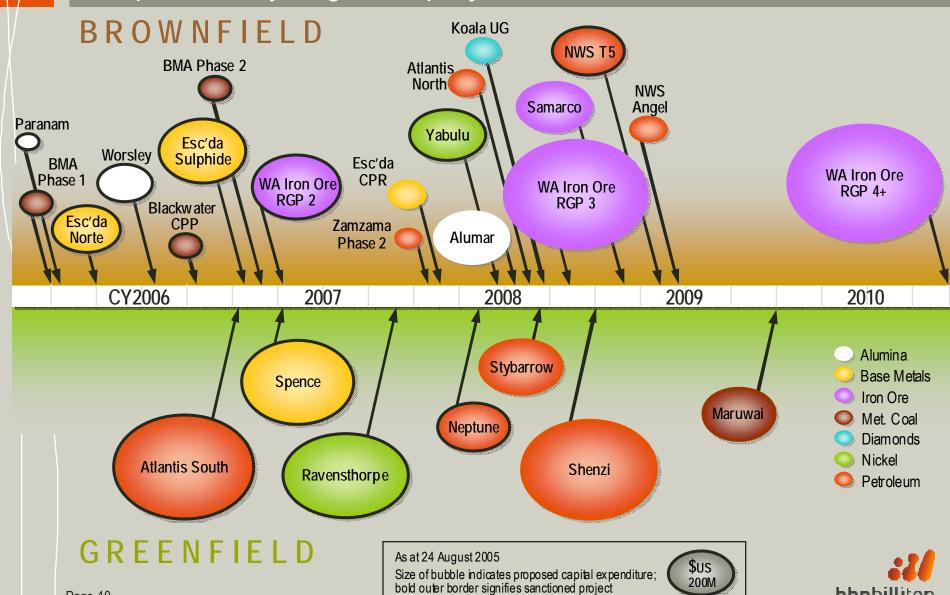

Volume growth Year ended June 2001 to year ended June 2005

Deep inventory of growth projects

200M

bhpbilliton

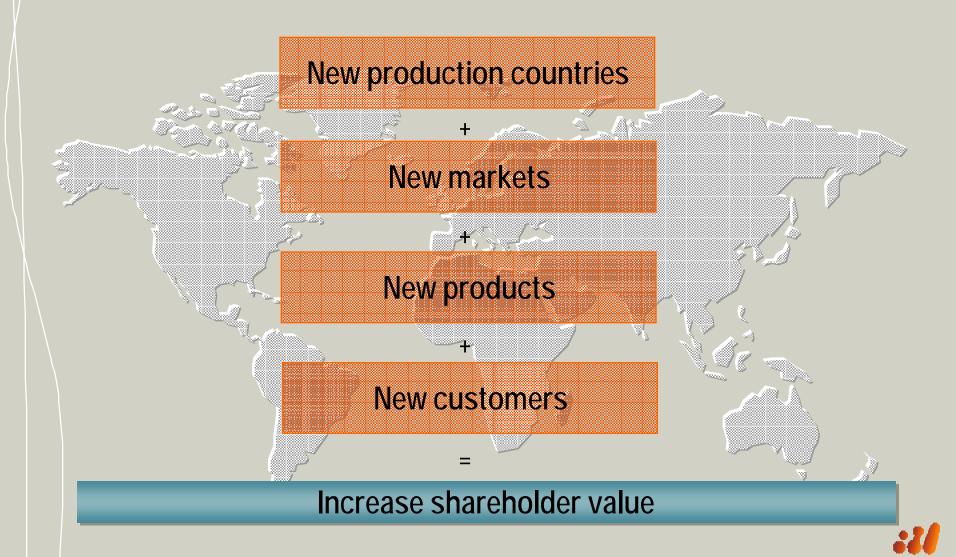

Acquisition of WMC delivers further growth options

- 100% ownership achieved on 2 August 2005
- Fully aligned with corporate strategy:
 - Access to Tier 1 assets, and the optionality they provide
 - Value focussed
 - No change to normal valuation methodology or pricing protocols
- Grows BHP Billiton's strong industry positions:
 - Creates No 2 global copper producer
 - Creates No 3 global nickel producer
- Extends energy offering (oil, gas, coal and now uranium)
- BHP Billiton best placed to maximise value of WMC assets:
 - Existing copper and nickel operations
 - Track record of delivering large scale projects to time and cost
 - Track record of integrating businesses and extracting synergies

Integration Proceeding On Schedule

Creating options to meet increased demand

bhpbilli

Priorities for cash flow
