(Public Review Period: 21 March 2016 to 13 June 2016)

BHP Billiton Iron Ore has prepared a Strategic Proposal of its future operations in the Pilbara for the next 50 to 100 years. The Strategic Proposal will facilitate a more holistic and longer term view of mining activities in the Pilbara region by identifying and assessing how impacts to the environment at a landscape scale will be managed.

The PERSP describes the proposal, examines the likely environmental effects and the proposed environmental management procedures.
