

This figure is an indicative representation of the current design of the Outer Harbour Development. Changes may be necessary as the engineering design progresses to ensure it is efficient, practical and within land disturbance requirements at the time of construction. Final design drawing files will be forwarded to the relevant Government authorities on finalisation and completion.

- Legend**
- |  |   |                                  |
|--|---|----------------------------------|
| Ecological Protection Level              | Proposed Departure Channel              | Proposed Tug Access Channel      |
| Moderate Protection                      | Proposed Berth Pockets and Swing Basins | Proposed Jetty                   |
| 99% Habitat Protection                   | Proposed Link Channel                   | Proposed Wharf                   |
| State/Commonwealth Jurisdiction Boundary | Existing Shipping Channel               | Existing Railway                 |
|  |   | Spoil Ground (Existing)          |
|  |   | Proposed Infrastructure Corridor |
