ARTICLE IV
Concurrent Surface Utilization Agreement

Transferor and Transferee recognize that they will have correlative rights and obligations with respect to the use of the surface and subsurface of the Lands and that each must exercise their respective rights with reasonable regard for the rights of the other. With regard to such correlative rights and obligations, both Parties incorporate by reference into this Conveyance the terms and conditions of that certain Concurrent Surface Utilization Agreement dated November 17, 2014 and executed by the Parties.

with Article 18 of the PSA and incorporated herein by reference and made applicable to the Assets as if such terms and provisions were fully set forth herein.

ARTICLE VI Miscellaneous

Section 6.01 Definitions. Capitalized terms used in this Conveyance and not otherwise defined shall have the meanings given to such terms in the PSA.

Section 6.02 Subject to PSA; Matters of Record. This Conveyance is subject to the terms of the PSA, to all matters of record affecting the Assets, and to the terms of all instruments creating the Assets. With respect to the PSA, the Transferor and Transferee intend that the terms of the PSA remain separate and distinct from and not merge into the terms of this Conveyance, and that in the event of a conflict between the PSA and this Conveyance, the PSA shall control.

Section 6.03 Choice of Law and Venue. The rights and obligations between the Parties with respect to this Conveyance is governed by and shall be construed according to the laws of the State of Texas, excluding any conflicts-of-law rule or principle that might apply the law of another jurisdiction. Jurisdiction and venue with respect to any disputes arising hereunder or under the PSA shall be brought in the State or Federal Courts of Harris County, Texas. Any issues regarding title to property or the creation of mineral rights will be governed by and must be construed according to the laws of where the property to which they pertain is located.

Section 6.04 No Third Parties Beneficiaries. Nothing in this Conveyance shall entitle a third party to any claims, remedy, or right of any kind, except as to those rights expressly provided to Transferor Indemnities or Transferee Indemnities, or to the successors and assigns as provided in Article IV.

Section 6.05 Further Assurances. After the Effective Time as may be necessary, Transferor and Transferee shall execute and deliver such other instruments and documents and take such other actions as may be reasonably necessary to evidence and effectuate the transactions contemplated by this Conveyance. Without limiting the generality of the foregoing, Transferor and Transferee acknowledge that it is the Parties' intent that the Assigned Depths affect only rights and depths from the surface of the earth to a subsurface depth stratigraphically equivalent to the base of what is generically referred to in North Louisiana as the Cotton Valley Formation or Cotton Valley Sands (the "Cotton Valley Depths"), and that it is Parties' intent that Transferor shall retain the Reserved Depths, i.e. all rights and depths lying below the Cotton Valley Depths, including specifically the shale sections which are often generically referred to as the Bossier shale and Haynesville shale. Further, it is the Parties' intent that the conveyances to Buyer contemplated by this Agreement include all Assets in and used in and related to the Cotton Valley Depths. In the event that (1) the language defining the Target Depth selected by the Parties for each particular Assigned Lease or other of the Assets conflicts with the intentions of the Transferor and Transferee expressed in this section, or (2) the language, Exhibits, and/or Schedules that define the Assets, in whole or in part, conflicts with or does not fully effectuate the intentions of the Parties expressed in this Section, Transferor and Transferee will cooperate with the other in executing and recording

any and all acts as may be necessary to correct, amend, clarify or supplement the instruments of conveyance in order to have same accurately reflect the intentions of the parties expressed herein.

Section 6.06 Seller Comprises Several Separate Entities. The Transferee acknowledges and agrees that the Assets are not owned by the Transferors in the same proportion as to each and every component thereof, and that one or more Transferor may own no interest in one or more of the Assets. Nevertheless, for convenience, this Conveyance has been prepared for execution by all Transferors and by executing this Conveyance it is the intention of each Transferor to transfer, assign, and convey only such entity's right, title, and interest, if any, in and to the Assets. The Transferor's representations and warranties with respect to the Assets are made by each Transferor only with respect to the Assets (or interest therein) owned by such separate Transferor and not with respect to the Assets or interests therein owned by any other Transferors. There shall be no *in solido* (joint and several) liability among the Transferors for the purposes of this Conveyance.

Section 6.07 Counterpart Execution. This Conveyance may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same instrument. It shall not be necessary that any single counterpart hereof be signed by all Parties hereto, as long as at least one counterpart is executed by each Party. Signature pages from various counterparts may be attached to a single counterpart for recording purposes.

Section 6.08 Successors and Assigns. All of the provisions hereof shall inure to the benefit of and be binding upon Transferor and Transferee, their respective successors and assigns, and shall constitute covenants running with the land. All references herein to Transferor or Transferee shall include their respective successors and assigns.

Section 6.09 Severability. In the event that any one or more covenants, clauses, or provisions of this Conveyance shall be held invalid or illegal, such invalidity or illegality shall not affect any other provisions of this Conveyance.

Section 6.10 Construction. The captions in this Conveyance are for convenience only and shall not be considered a part of or affect the construction or interpretation of any provision of this Conveyance. Transferor and Transferee acknowledge that they have participated jointly in the negotiation and drafting of this Conveyance and as such they agree that if an ambiguity or question of intent or interpretation arises, this Conveyance shall not be construed more strictly against one Party than the other on the grounds of authorship.
